IntelEDI

WWW.INTELEDI.AI

INTELEDI OVERVIEW

Account for every payment, from remittance to bank deposit to posting.

IntelEDI matches what the payer says it paid with what the bank received, before anything posts. Your EHR, clearinghouse, bank and lockbox stay exactly where they are.

THE PROBLEM

One payment. Four records. None of them agree on their own.

The payer says what it paid
The 835

The bank says what arrived
The deposit

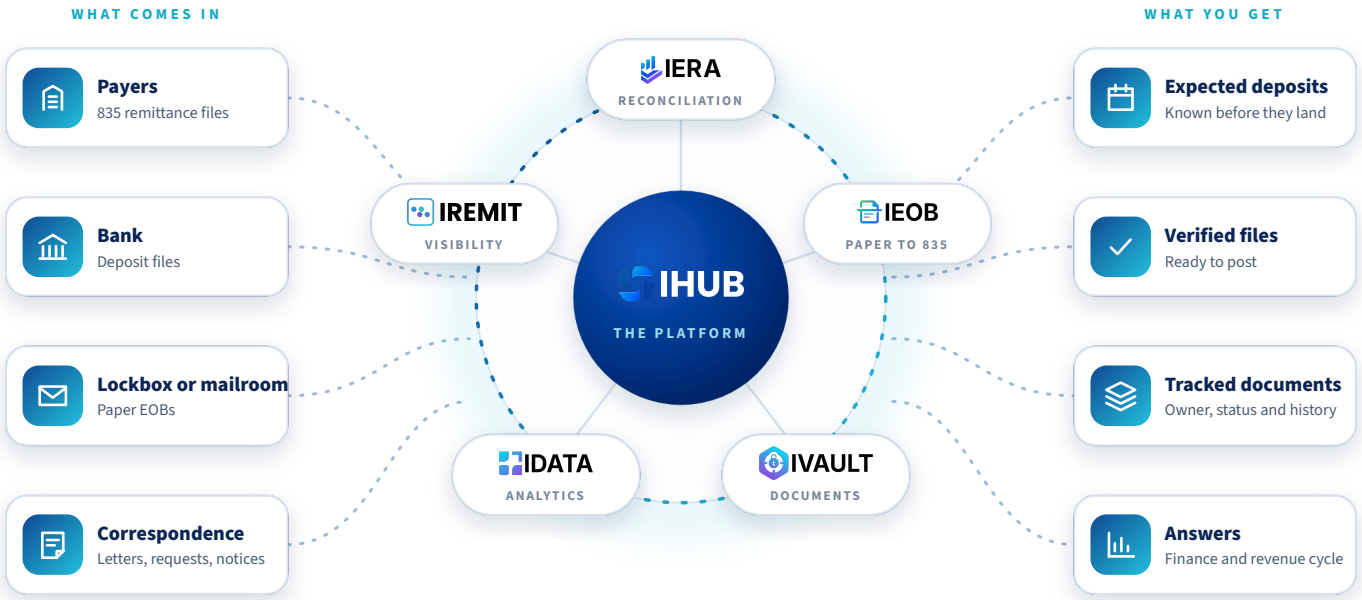

Your system says what posted
The ledger

Your team works out the rest
The spreadsheet

They do not reconcile themselves. People do it. Usually in a spreadsheet, after the fact.

THE SOLUTION

One platform. Six solutions. Turn on what you need.

Modular
Six solutions on one platform. Start with one. Add others when you are ready.

Nothing replaced
Your EHR, clearinghouse, bank and lockbox stay exactly where they are.

Verified before it posts
Every remittance is matched to its deposit first.

A name on every action
Every change carries a note, a name and a time.

INTELEDI OVERVIEW

Modular. Proven. Supported.

IntelEDI

THE SIX SOLUTIONS

IHUB
THE PLATFORM
One place to see every payment and every exception.

IREMIT
REMITTANCE VISIBILITY
See your deposits before they land, using the 835s you already receive.

IERA
RECONCILIATION
Match every remittance to its bank deposit before it posts.

IEOB
PAPER CONVERSION
Paper EOBs converted into standard 835 files.

IVAULT
DOCUMENTS
Every document categorized, routed and tracked.

IDATA
ANALYTICS
Answers from the payment data you already have.

THE RETURN

The return comes from three places.

Manual work goes away
The matching your team does by hand is done automatically.

Staff work only true exceptions
Cash is verified before it posts.

A faster close, easier to defend
Every action leaves an audit trail.

COST TO HANDLE ONE REMITTANCE

Industry benchmark from the 2024 CAQH Index (2023 data). Not an IntelEDI client result.

EASY TO IMPLEMENT

Seven clear phases. Proven on your files before go-live.

1. Kickoff
2. Discovery
3. Configuration
4. Testing
5. Training
6. Go-live
7. Hypercare

WORLD-CLASS SUPPORT

We stay close, long after go-live.

LEVEL 1
Day-to-day help
Your first call for questions about using the platform.

LEVEL 2
Platform support
The IntelEDI team that configured your environment.

LEVEL 3
Engineering
Brought in by IntelEDI when a fix needs development.

INTELEDI CONSULTING

Close the gap between care delivered and cash collected.

Proactive Denials Prevention Strategy

Charge Capture and Leakage Assessments

Hospital Vendor Contract Compliance

See it run on your own files.
